Subject: TES nicotine/metabolite analyses

Hi Robin,

Just a quick note to follow the protocols sent recently for your review. Please note that Carey Cunningham will be Study Director for 0044/031, and will look after the day to day running of the nicotine and metabolites work alongside me. However, I will still remain the main point of contact for the PM work.

Carey's (her) contact details are as follows:

E-mail: carey.cunningham@covance.com
Tel direct: +44 1423 848750

She will provide a good second port of call should I be unavailable for any reason.

Kind regards,

Mark....
